

AMER HAMDAN

Senior Full-Stack Engineer · Tech Lead · AI-Product Development

amer.m.hamdan@gmail.com · +90 553 327 11 00 · Istanbul, Türkiye · amerhamdan.com · github.com/amerhamdan3 · linkedin.com/in/amerhamdan3

Open to senior full-stack, tech lead, and AI-product roles — remote or Istanbul.

SUMMARY

Senior full-stack engineer and team lead with ten years building and rebuilding production web platforms across news, recruitment, healthcare research, and SaaS. Leads small teams through legacy migrations — PHP to Laravel, WordPress to Next.js — and ships the result with measurable gains in performance, engagement, and delivery rate. Comfortable owning the whole path: data model, API, interface, cloud deployment, and the SEO and Core Web Vitals work that decides whether anyone finds the product at all.

EXPERIENCE

Senior Full-Stack Developer / Team Lead

ID8 Media · Istanbul, Türkiye · 2023 — Present

- Raised project success rate 25% by leading development teams through 5 complex, concurrent client builds.
- Improved software efficiency 15% for news agencies by engineering tailored publishing and content-delivery solutions.
- Built large-scale global hiring platforms handling multi-region job data and employer workflows.
- Own the delivery pipeline for multi-client sites: architecture, code review, deployment, and post-launch performance.

Web Lead & Site Administrator

Multifaith Alliance · New York, United States (remote) · 2021 — Present

- Improved site performance 70% by rebuilding the entire site with Next.js and Tailwind CSS.
- Migrated a legacy WordPress installation to a fully custom modern stack with no loss of content or search ranking.
- Built dynamic page types and a reusable component system the non-profit's staff can extend without a developer.
- Reworked SEO structure, page-load speed, responsive behaviour, and production deployment.

Founder & CEO

Amenu (SaaS) · Global · 2020 — Present

- Grew to 1,000+ active users, demonstrating real market adoption without a sales team.
- Shipped three major versions, each iterating on features, onboarding, and performance from live usage data.
- Built and run the full stack independently — product, front end, back end, billing, infrastructure, and support.

Head of Developers Team

Orient News · Dubai, United Arab Emirates · 2021 — 2023

- Increased user engagement 30% by leading the development of a new website for a major news agency.
- Boosted platform performance 30% by migrating the newsroom from native PHP to Laravel.
- Built and led the development team from scratch, setting review standards and release process.
- Owned the SEO strategy and content architecture, growing organic traffic and improving Core Web Vitals.

Head of Developers

Alpha Creative Agency · Istanbul, Türkiye · 2016 — 2021

- Delivered 21+ production websites across client industries.
- Led the programming team day to day, from scoping through delivery and handover.
- Designed and implemented admin panels and front-end interfaces for clients with no in-house technical staff.

EARLIER EXPERIENCE

SEO & Technical Consultant, Freelance · Global · 2020 — Present

- Delivered comprehensive site status analyses for 100 clients, translating audits into ranked action lists.
- Improved client execution efficiency 15% by replacing vague audit reports with prioritised, detailed to-do lists.

Senior Consultant, Inhouse Global · Istanbul, Türkiye · 2020 — 2021

- Increased user engagement 30% by developing a fully functional website from scratch.
- Managed network infrastructure and server requirements alongside the application itself.

Full-Stack Web Developer, Job2Go Recruitment Agency · Wales, United Kingdom · 2019 — 2020

- Reduced downtime 30% by defining the site roadmap and establishing robust server infrastructure.
- Increased production efficiency 15% by introducing the tooling and systems the team was missing.

Full-Stack Web Developer, Questionnaire Connect · United States (remote) · 2018 — 2019

- Increased survey response rate 35% by developing a purpose-built web application for Questionnaire Connect®.
- Cut roughly \$20,000 from feedback-collection costs by distributing 5,000 surveys online instead of on paper.

SELECTED PROJECTS

Orient News Platform · Orient News · 2021 — 2023 · +30% engagement · +30% platform performance

Full digital transformation of a regional news agency: legacy native PHP rebuilt on Laravel, then a Next.js front end on top for speed and search. Stack: Laravel, PHP, Next.js, React, SEO.

Multifaith Alliance · 2021 — Present · +70% site performance

Complete rebuild of a US non-profit's public platform, moving from WordPress to a custom Next.js and Tailwind stack with a reusable component system. Stack: Next.js, Tailwind CSS, TypeScript, Migration, SEO.

Amenu · Independent · 2020 — Present · 1,000+ active users

Menu-management SaaS for restaurants. Built solo end to end and iterated across three major versions based on how real venues actually used it. Stack: SaaS, Node.js, Product, Multi-tenant.

Global Hiring Platforms · ID8 Media · 2023 — Present · +25% project success rate across 5 builds

Large-scale recruitment platforms handling multi-region job data, employer workflows, and candidate matching, delivered alongside multi-client site operations. Stack: Next.js, TypeScript, Node.js, Google Cloud Run, Docker.
